

BUSTER THE BLACK NOSED REINDEER

(GRUB songs 2023)

Parody of 'Rudolph the Red Nosed Reindeer, by R. McLaughlin

Reindeer in fact normally have bright red noses due to vasodilation, a process that occurs when small blood vessels near the surface of the skin dilate in order to increase blood flow. The extra blood flow helps to warm the skin during cold temperatures. It would be very unusual to have a black nosed reindeer

The moral to the story is- play nice or you might end up with a 'Buster-ed' nose!
